Docket No 355 of the 13th September 1890 from the Deputy Commissioner of the Tenkur District.

In his letter of the 27th March 1890, No 572 the Deputy Commissioner reported that during the heavy rains of last year, the Suvarnamukhi river bursting its banks just above Rampur in the Koilgi Tenkur Taluk the water rushed over many of the fields and gardens lying below, sweeping away the standing crops, and covering some of the lands

* As N. lands are dealt with & stated to have been rendered unfit for cultivation from causes beyond the control of the occupants, the remissions proposed may be granted.

I wd make no difference between occupants holding less than 1 acre & those holding more than one acre. I wd treat them all alike.

with a deposit of sand to various depths of from 1 to 3 feet thus rendering them more or less useless for cultivation. In doing so Mr. Cress sub-mitted two statements shewing the assessment proposed to be remitted for the year 1889-90 and stated that the Ryots holding less than one acre in extent being allowed to resign their holdings or to pay full assessment from the current year, there were others permanent holders who could not resign their lands and to whom some concession should be granted to enable them

them to remove the
Sand and make
their lands fit for
cultivation. He therefore
Suggested that all
those mentioned in
Statement No. 1 who
possess more than one
acre in extent be
allowed to pay one-fourth
of the assessment during
the current year, viz. 1890-9
one-half in 1891-92 and
full assessment in 1892-93.

(2) the assessment
payable by the holders
after deducting the
amount to be remitted.
3. The revised statements
received from the
Deputy Commissioner
were again returned × to him with the observation
that the proportionate
assessment on some of
the lands rendered unfit
for cultivation had not
been correctly entered, while only
a portion of the assessment
had been recommended
for remission in cases
in which the whole extent
of land had been shewn
in col: 13 of Statement No 1
as unfit for cultivation.
The Dy Commissioner

× with this office No 6259 of the 214 3rd Septr/90.

was requested to submit correct statements with his own opinion on the proposals made by Mr. Cross & Mr. Venkataramadasayya. States that the differences pointed out are owing to some portions of the amounts originally intended for remission having since been recovered, and recommends the remissions proposed being sanctioned.

5. The total assessment recommended for remission for the year 1889-90 is Rs 235-7-11 as shewn below:

	Rs.	as.	P.
According to Statement No I. Full assessment	175	8	7
According to Statement No II, half assessment.	59	15	4
Total	235	7	11

6. If the concession proposed by Mr. Cress regarding which Mr. Venkatanandhangam is silent, is approved all the Khatedars ~~are~~ noted in statement No 1 (except 4 marked x in red pencil) will have the advantage of paying Shunya rates of assessment for two years and the loss to Government would be Rs 225-9- and 150-6-. respectively during the current & the ensuing years.

Under what Rule of the L R Rules does this come

Sir In a case

like this I can see no provision in any part of the L.R. Rules for granting the sort of Concession recommended by the Dy Comr. Rule XV authorizes Dy Comrs to allow abatement of assessment on the area actually lost by diluvion, though such area may be below the minimum prescribed in Section 47 of the L.R. Code viz not being less than half an acre in extent nor less than one tenth of the holding. No mention is made as to what extent the abatement of assessment can be allowed or to what period.

Para 18 of Rule XX authorizes
Dy Comrs. to grant on progressive
Cowle land which "happens
to be a jungle or overgrown
with prickly pear, or otherwise
requiring extraordinary labor
or capital to render it fit
for cultivation - But the
case under reference is
different from that, the
the damage caused to the
lands is from causes beyond
the Ryots control -

Deputy Commissioner's Office.
Tiptur 27th March 1890.

To

(1)

The Chief Secretary to the
Government of Mysore.

Sir,

I have the honor to submit for the special orders of Government the case of the ryots of Rampore, Koratagere Sub Taluk, as the peculiar circumstances attending it do not appear to be provided for by any of the orders or proceedings in force

2 During the heavy rains of last year, the Savarna Mutte river was in flood, and bursting its banks just above Rampur, the water rushed over many fields and gardens lying

sweeping away the standing crops, and covering some of the lands with a deposit of sand to various depths of from one to three feet, thus rendering them more or less useless for cultivation

3. Indeed had it not been for the energy and exertions of the Deputy Amildar Sirinarrengar in speedily diverting and damming back the flow of water much loss of life and property would have ensued, as Rampur itself was threatened with an inundation.

4. The owners of the lands, which were so completely swamped, have necessarily suffered very much, since they have not only lost their crops entirely, but must considerable labor and re they can again render the

the lands cultivable.

5. As regards the concessions which the Government may be expected to make under such untoward circumstances, I would beg leave to recommend that the whole of the current years assessment should be remitted upon the extent of lands specified in column 13 of list No I, as the owners of these have suffered severely; and that half the assessment should be foregone upon the extent set forth in Column 13 of statement No II, wherein the losses have been somewhat less in extent.

6. Respecting the future, I think those ryots who hold less than one acre in extent may be allowed either to resign such

holdings

holdings or pay the full assessment next year, as they please; but there are other permanent holders and occupants to whom it would be ruin to throw up their lands, and by way of encouraging these to clear and reattivate their holdings, I would suggest that to all those mentioned in statement No I, who possess more than one acre in extent, certain concessions might be granted similar to the Shraya tenure, viz: that they should pay one fourth of the assessment next year one half in the second year, and the whole in the third year, thus enabling them to have time and some chance of clearing their lands from the incubus of sand which now overlies them.

Having personally inspected the place, I can confidently recommend

To,

The Chief Secretary to the
Government of Mysore

Sir,

(7) With reference to Government order No: 1217 R.T. 232-92 of the 28th December 1892, sanctioning certain remissions of Kandayem in favor of the Ryots of Rampoor viz in the Kovatigere Sub Talúk in consideration of their lands having been flooded by the overflow of the Suvarnamúkhi River, and calling for a report as to the extent to which effect has been given to those orders, I have the honor to submit herewith 2 Statements shewing respectively the amount of full and half remission (aggregating Rs: 237-3-10) granted for 1889-90, the year in which the overflow occurred.

2. The further concession recommended and sanctioned viz: the remission of portions of Kandayem for 1890-91 and 1891-92 could not be given effect to, the Kandayem

Kandayam for those years having been recovered previous to the receipt of the above quoted final order in January 1893—
